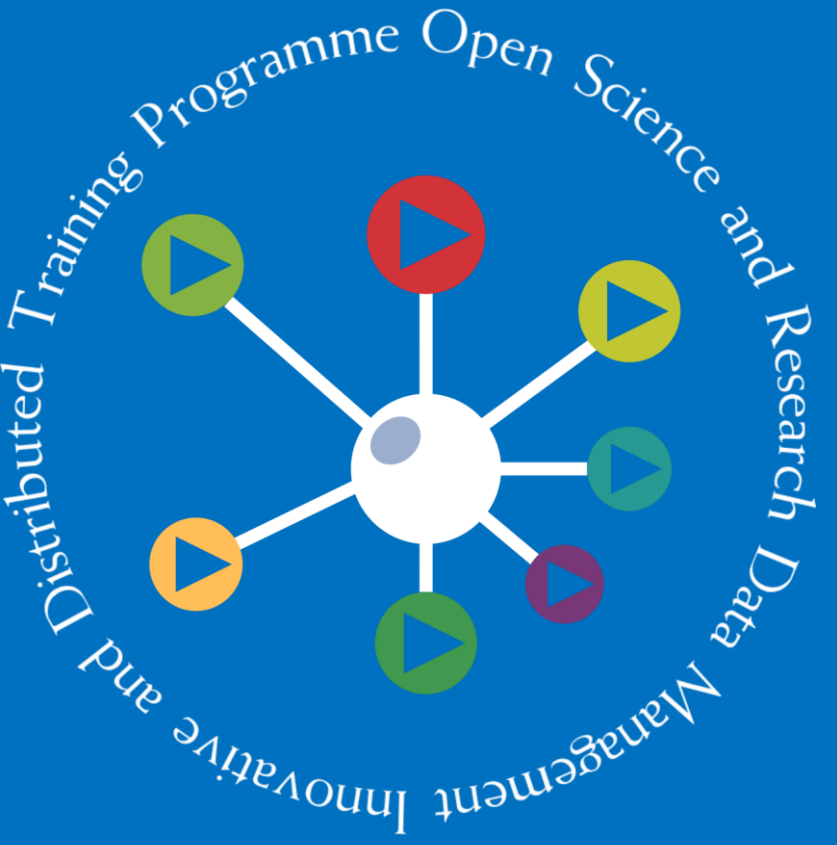
IO2: Joint Design of Training Programme on OS and RDM



TrainRDM Project meeting
January 17, 2021

IO2: Training Programme definition

- Attendees: to be defined according to training weeks' target

- Lecturers: staff from Sapienza Research and TT Area + academics (e.g. prof. Stefano Leonardi)

- Dates for Sapienza TW: September 12-16, 2022

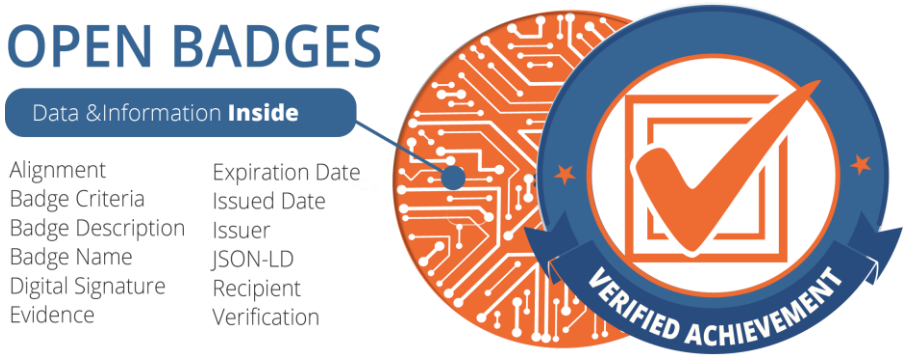
IO2: Training content – Open Innovation

1. Defining Open Innovation → introduction to the topic and audience's engagement 0,5 h
2. Open Innovation for HEIs → how universities can implement and benefit from OI 1h
3. Academic entrepreneurship → spin-offs, start-ups and investors 1,5 h
4. Case study: the RRIstart project → a novel model for responsible start ups and impactful investment 0,5 h'
5. IPR and novel property models → POCs, public-private partnership, joint results 1,5 h
6. Tools for Open Innovation → Canvas, Theory of Change, PEST model, crowdfunding 1,5 h

Open Badges

TrainRDM Project meeting
January 17, 2021

What Open Badges are?



An Open Badge is an instrument that makes visible (and actionable) information about the experiences, achievements, practices, skills, commitments, values or aspirations of an individual, community (of practice) or organisation. By making visible (in an open format, free of rights and under the control of their "owners") information that was previously inaccessible, open badges facilitate the emergence of recognition eco-systems that promote learning, employment and social inclusion.

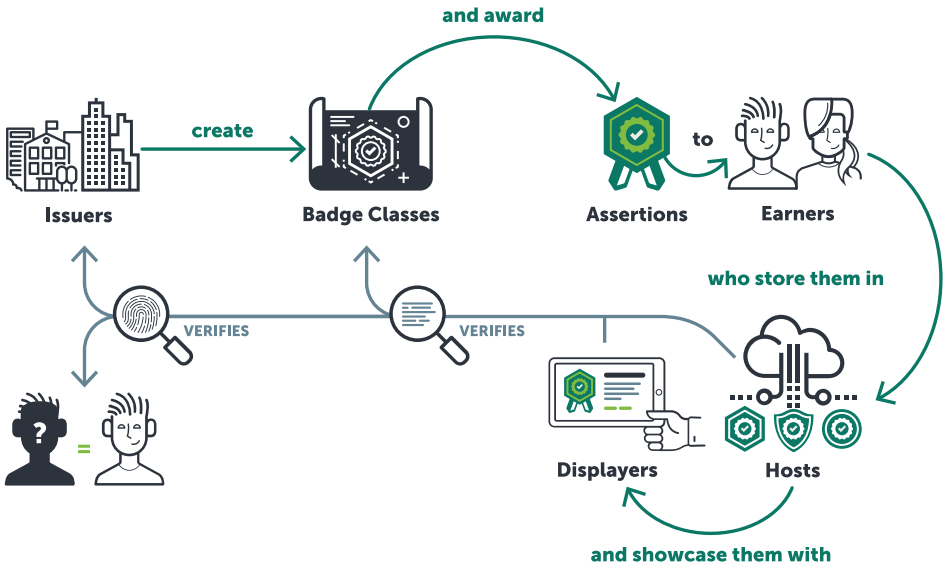
Open Recognition

In 2016, a new coalition of learning stakeholders issued the **Bologna Open Recognition Declaration**: a call for a universal open architecture for the recognition of lifelong and lifewide learning achievements.

Open Badges, the open standard for the recognition of learning achievements has proved the power of a simple, affordable, resilient and trustworthy technology to create an open recognition ecosystem working across countries, educational sectors, work, social environments and technologies.

More info: **https://www.openrecognition.org/**

Open Badge Platforms



Several platforms for OBs have been accredited by IMS Global Learning Consortium, the overall list is available here:

https://site.imsglobal.org/certifications?refinementList%5Bstandards_lvlx%5D%5B0%5D=Open%20Badges

Sapienza badges are issued by **Bestr** developed by CINECA and representing the Italian contact point for open badges.

THANK YOU!
